From the Vice President– Glenn Ingraham

Good Neighbors – from Glenn Ingraham

You've probably heard this before, but give it another go:

A couple stops in at the corner market in a small town and as they're paying for their snacks they ask the older gentleman behind the counter a question. "We're thinking of moving here and are just wondering what kind of people live around here."

As the older guy packs up their goods he says, "What kind of people live in the neighborhood you're from?"

The couple pass a look between them and the woman says, "Well... they're kind of snooty and hard to get along with. Very gossipy."

"Well, that pretty much describes the folks around here".

A couple of weeks later another couple comes in and asks the clerk the same question. Again, he asks them what kind of people they're used to. "Oh, they're wonderful people. Kind and thoughtful. We really hate to leave."

"Well, you should be all right then, cause that's exactly the kind of people we have here."

Neighborhoods are filled with all kinds of people, some easier to get along with than others. Get to know your neighbors. That way if some kind of dispute does arise, you're already in a position to talk about it. Does your neighbor even know that their tree is shedding leaves in your yard, or that their dog barks when they're not at home? The only way to be sure is to have that conversation. The board gets involved in neighbor-to-neighbor disputes only when it reaches the point where mediation or arbitration is needed. Remember, be kind, be patient, be polite. And don't forget to ask yourself, 'What kind of neighbor am I?'

From Architectural Director– Henry Kantrowitz

I would like to thank everyone who has asked me or the board for an architectural request form before performing any outside changes to their property. Remember that the request form needs to have HOA Board approval before any work begins.

November Trivia,

Biomass: The total quantity or weight of organisms in a given area.

Did you know domesticated birds, mainly chickens, turkeys, and ducks, make up 70% of all the biomass of all birds on earth, while wild birds only make up 30%?

Humans and their livestock (cattle, pigs, sheep, and goats) make up 96% of the biomass of all living mammals on earth. Only 4% of mammals are wild animals.

Police Officer:

While taking a routine vandalism report at an elementary school, I was interrupted by a little girl about six years old. Looking up and down at my uniform, she asked "Are you a cop?" Yes, I answered and continued writing the report. "My mother said that if I ever needed help, I should call the police, is that right?" Yes, I answered and continued with the report.

Well then", she answered as she extended her foot toward me. "Would you please tie my shoe?"

Cats can hear 4-5 times further than humans can, which makes it all the more impressive when they totally ignore you.

Thanks! Shelby
