INTERNET + TV

from \$ **39.99** /mo each for 12 mos when bundled*

NO CONTRACTS

Plus, add Spectrum Voice® for \$9.99/month.*

\$39.99 IN BIG 120 point font sounds unbelievable... and it is.

If you are interested, then here are some questions to ask.

- What is the actual price for you system?
- How long does this promotion last?
- What will the price be after the promotion?
- Is this the cost for EACH TV?
- Is there a connect/disconnect fee?
- What is the component breakdown cost?
- What is the Modem cost?
- Is the Modem a combination of Modem-Router?
- What is the Cable Box cost?

Modem: the Modem is a cable interface box that converts the cable TV signal and sends it to the Cable Box.

Router: the Router provides what we typically call our WiFi Network; it transmits a signal that allows computers, phones, Ipads and Smart TVs to pick up the Internet directly without wires. Many modern Modems are a combination of both a Modem and Router in a single box.

Cable Box: the Cable Box is collocated with your TV, where it allows you to select the Cable Channels you want to watch.
