

The Old IRS Scam

I have heard about this scam from time to time, but I never thought I would actually get the call. Then last week I received one of those calls that the phone company labels “Scam Likely”.

Now I usually never answer those because in the past it has been some refi company trying to get me to refinance my home.

But I was standing right there when the call came in and it irritated me because I get so many,so I decided to tell them to “Quit”!

And there it was!

We want to inform you that the IRS has a warrant out for your arrest....blah, blah..... Call us at

I had to laugh at the ridiculousness of the SCAM. But then I got to thinking... if they are still doing this, someone must be falling for it and sending them money.

DO NOT CALL THEM

DO NOT SEND THEM MONEY

THE IRS DOES NOT FUNCTION LIKE THAT, THEY SEND LETTERS

FEAR IS HOW THEY GET YOU

DO NOT BE AFRAID

THE IRS DOES NOT FUNCTION LIKE THAT

PS: I don't believe it, I got another IRS Scam call, they must be desperate or they are making a lot of money.
