## **WSK Street Maintenance Project**

## Phase 2 - Scope & Schedule

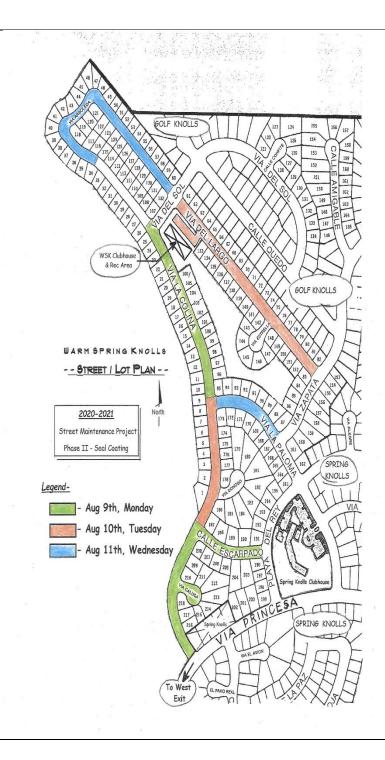

August 2-3 (Monday-Tuesday): Two days of filling cracks on all streets & clubhouse parking lot. This will not require any street closures and can be driven on immediately – just don't let your dogs walk on it!

August 9, 10 & 11 (Mon thru Wed): Three days of seal coating per colored areas on adjacent map. This work requires 12-hour street closures (no traffic) for individual sections, until the following morning.

Please plan ahead to reschedule appointments or relocate your cars. Use other streets to avoid driving on new seal coat.

Aug 12 & 13 (Thursday-Friday): Two days of clean-up and painting stop-bars, 'slow' bars, speed limits & parking spaces. Again, this will not require any street closures – just try not to run over any workers or equipment!

\*\* And, refrain from doing any 'burn-outs' or 'donuts'!! (-;

## Be Safe / Drive Carefully
